Corporate Information

Corporate Profile

Rit-Beulah Engineering Services Ltd (RC. 382490) is a fully-owned Nigerian registered private limited liability company having international affiliations with reputable and competent foreign technical partners.

Rit-Beulah Engineering Services Ltd was incorporated in May 2000, under the Companies and Allied Matters Act 1990. Its headquarters is in Lagos, Nigeria.

The company is principally involved in the provision of support and maintenance services for companies operating in the oil and gas industry and related petrochemical sectors.

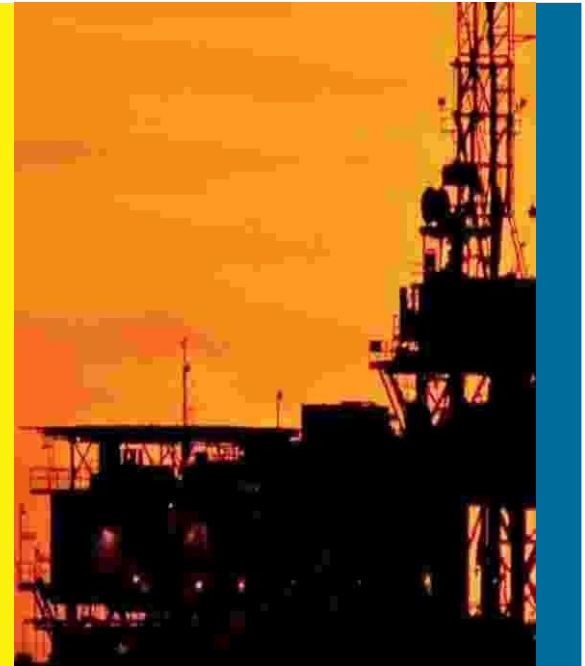

Mission Statement

To provide a range of highest quality oil field services, including but not limited to; well intervention, mud logging services, well testing, OCTG, logistic support, vessel leasing etc. to companies operating in the oil and gas industry using global best practices, while emphasizing the Nigerian content.

Our Vision

To consistently achieve a year-on-year growth of 20% across all our services leading up to the year 2020. The company shall own and operate several rigs and several vessels. The Rit-Beulah's Business shall be a dominant player in the nation's oil servicing business.

Our Values

- Safe and efficient operations at all times
- Customer satisfaction, our highest priority
- Profit, but profit from work done with honesty & integrity
- Corporate social responsibility
- Unequivocal excellence in all aspects of the company
- Science-based innovation

Our promise to our customers

- Powerful negotiation capability: based on large business volumes and clear market intelligence
- Stable and reliable resources guarantee*
- Rich procurement experiences drawn from foreign technical partners
- Strict quality and progress control
- Professional technical support
- Performance within agreed timings and deadlines

*All equipment as stated are available and ready for inspection in Rivers State

Our Services:

Procurement Services

- Oil Country Tubular Goods (OCTG)
- Pumps
- Valves & Fittings

We procure & supply Premium quality OCTGs (9"5/8, 4"1/2, 13"3/8, 7" etc.) and other Engineering Procurement Services for our clients.

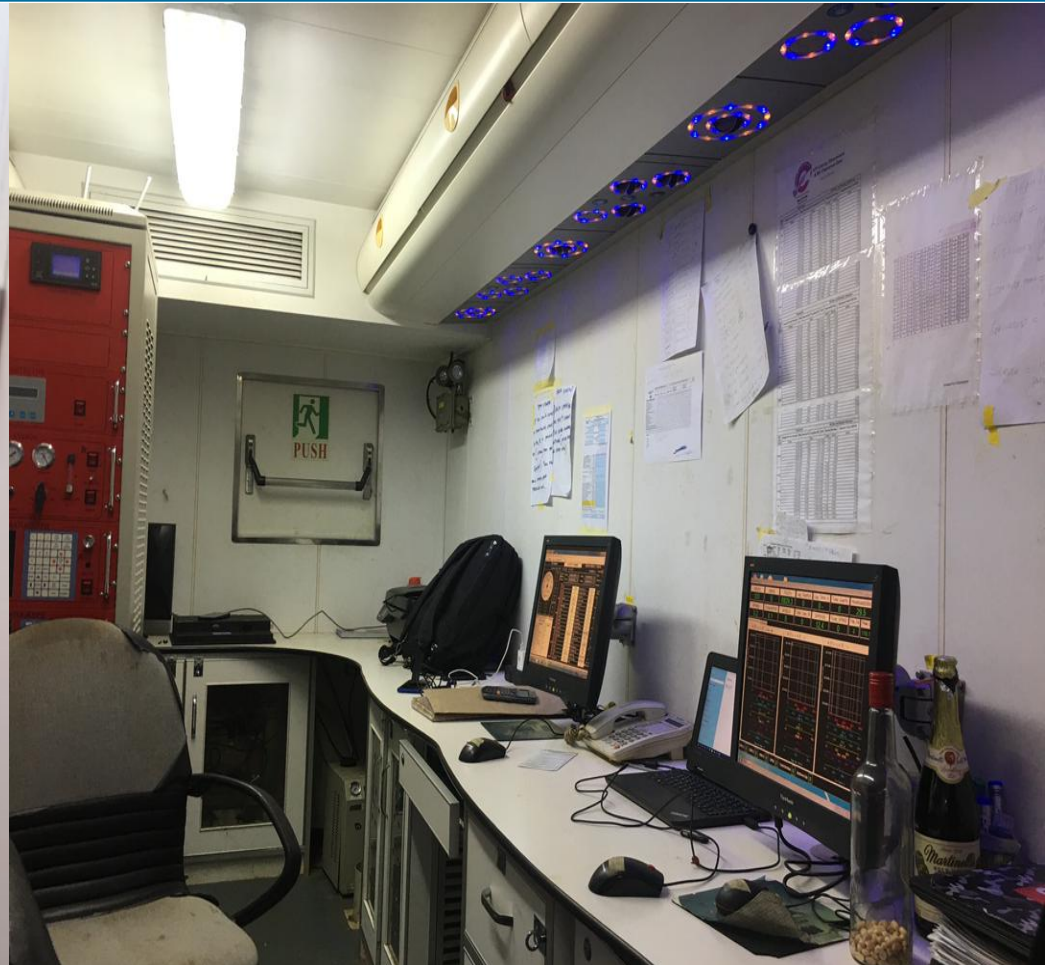

Offshore Engineering and Construction

Mud Logging Services

Measurement while drilling MWD/LWD

Well Intervention Services

A group of people, likely construction workers, are shown in a meeting or training session. They are wearing yellow hard hats and orange safety vests. The image is slightly blurred, suggesting movement or a candid moment. A dark blue horizontal bar is overlaid on the lower part of the image, containing the text "Manpower Supply".

Manpower Supply

Pipeline Fabrication & Construction

Engineering Design & Construction of Ogbele-Rumuji Gas Pipeline for NDPR.

Construction of Egbaoma Manifold for Platform Petroleum Limited.

Construction of Ohaji Station Pipeline etc.

Fendering

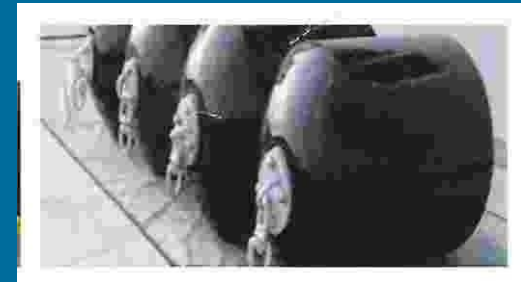

Rit Beulah was built on our ability to provide best-in-class fendering solutions to our clients

These fenders are ideal for short-term port calls or one-off berthing's, interim fendering during construction or maintenance work, transfer of cargoes at sea, buoyancy aids, providing vessels stand-off or double berthing requirements

We can either sell these Fender solutions/products, rent, hire purchase or

repair/refurbish services. Our portfolio of fendering solutions can be summarized as:

- Yokohama pneumatic fenders
- Floating foam fenders & conut fenders
- systems Multi-purpose fenders - For dockside or vessel side installation
- Fixed fendering systems
- Vessel fendering

Lifting

Rit Beulah Fenders Equipment and Lifting Services provide the full range of Lifting and handling equipment for sale or hire.

All our products are backed up by full maintenance and servicing management tailored to your individual requirements. Our Lifting Services division provides support for not only the marine sector, but also onshore industrial companies.

- Workshop cranes
- Beam clamps
- Camlock lifting clamps
- Spreader beams
- Electric chain hoists
- Ratchet lever hoists
- Manual winches
- Hand chain hoists
- Powered winches
- Forklift
- attachments Fall
- arrest equipment
- Hydraulic jacks
- Chain slings and accessories
- Snatch blocks.
- Chain blocks
- Wire ropes
- Palette trucks
- Load Monitoring

Permanent loading lifting magnets

An aerial photograph of a large industrial facility, likely an oil and gas processing plant. The foreground and middle ground are dominated by numerous large, white, cylindrical storage tanks of varying sizes. A complex network of pipes, walkways, and structural steel is visible throughout the site. In the background, several tall, thin distillation columns or chimneys rise against a clear sky. The overall scene depicts a large-scale industrial operation.

Oil & Gas Field M maintenance Facilities
